Subject: 2025 Commute Trip Reduction (CTR) Survey

Greetings, WSDOT staff,

It's time for the Commute Trip Reduction (CTR) Survey!

NOTICE: This email contains links to multiple surveys. Please take only ONE survey for the assigned, permanent state facility worksite to which you currently belong. The survey should take less than five minutes to complete.

Worksite survey links:

- [Headquarters Transportation Building](#) in Olympia
- [Edna Lucille Goodrich \(ELG\) Building](#) in Tumwater
- [Materials Lab](#) in Tumwater
- [Mottman Environmental Services Office \(ESO\)](#) in Tumwater

The survey closes on Wednesday, Nov. 26, 2025.

If you are not an employee at any of these locations and believe this was sent to you by mistake, please do NOT complete the survey.

[Frequently asked questions:](#)

What is Commute Trip Reduction (CTR)? Why is this survey important?

It's a state law and program that focuses on reducing congestion and improving air quality. Results from the CTR survey help employers understand the commute patterns of their employees, enabling them to improve their commutes. The survey also provides valuable context for cities, counties, transit agencies, and the state to inform transportation planning, priorities, and policy.

I telework; do I still need to take the survey?

Yes, even though you may telework, your views and comments still help support the workplace and the purpose of this survey.

Are my responses anonymous?

Yes. No personally identifiable information is collected. The summarized worksite data may be shared with government entities.

If you have additional questions or need assistance with your work commute options, please contact TripReduction@wsdot.wa.gov.

Thank you for participating!

WSDOT's commute trip reduction team
